ELECTRIC OPERATING REVENUES (Account 400) - ARKANSAS ONLY

1. Report below operating revenue for each prescribed account, and manufactured gas revenues in total.
 2. Report number of customers, columns (g) and (h), on the basis of meters, in addition to the number of flat rate accounts, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
 3. If previous year (columns (d), (f), and (h)), are not derived from previously reported figures, explain any inconsistencies in a footnote.
 4. Commercial and Industrial Sales, Account 442, may be classified according to the basis of classification (Small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 1000Kw of demand. (See Account 442 of the Uniform System of Accounts. Explain basis of classification in a footnote.)
 5. Include unmetered sales. Provide details of such sales in a footnote.
 6. This Commission requires a reporting by Kwh rather than Mwh.
