RE: Shipe Rd to Kings River .345-kV Transmission Project
Docket Number 13-041-U
Benton, Carroll, Washington, and Madison Counties, Arkansas

RECEIVED
2013 APR 22 P 3:58
SECRETARY OF COMMERCE
ARK. PUBLIC SERV. COMM

Dear Ms. Rhude,

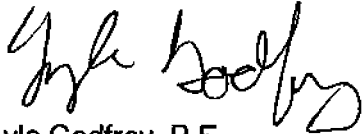

A staff review has been made of the information received on the referenced. The following public water systems are within the proposed electric transmission routes:

Shipe Rd to Kings River		
PWS ID	Source ID	System Name
T0312	101	LAKE LEATHERWOOD CAMPGROUND
T1054	101	62 FOOD MART
T0171	101	ANGLERS GRILL
T0829	101	THE INN AT LOST BRIDGE
827	101	KINGS HILL ESTATES
T0467	101	RIVERSIDE RESORT
037	101	BENTON CO WATER DISTRICT
T0399	101	STATION ONE
T0332	101	LITTLE PORTION HERMATAGE
038	101	BEAVER WATER DISTRICT
871	101	BENTON-WASHINGTON REGIONAL PWA
803	101	MADISON CO REGIONAL WATER
675	101	CARROLL-BOONE WATER DISTRICT

ADH recommends the systems listed above be notified should any construction occur within their source water protection areas. Furthermore, some of the proposed routes cross Beaver Lake watershed. Beaver Lake is a drinking water source for much of Northwest Arkansas. Every effort should be taken to prevent any sediment from construction run-off from entering Beaver Lake and its tributaries before, during, and after construction. Many drinking water transmission mains exist on or near the proposed routes. Any utility in question should be contacted prior to construction.

If you have any questions or comments, please coordinate them through Brad Jones at 501-661-2067.

Sincerely,

Lyle Godfrey, P.E.
