My Commission Exp. 9-15-2015

February 17, 2011

To whom it may concern:

I, Catherine Eaton, declare that my brother Robert W. White moved into my house at 320 Paris Lane, Malvern, Arkansas, in December of 2009 to help me with caring for my son, who was dying from cancer. During that time, Robert informed me that he and his wife would be getting a divorce, so Robert continued to reside in my home in Malvern, Arkansas. At this time Robert moved all his belongings in to my home, including his tools, clothes, boats, and various other items. Robert continued living with me until my sister in Dover, Arkansas became ill and needed his assistance in November 2010. At which time he split his time staying with me and half the time staying with my sister to care for her. In January of 2011 he moved out of my house completely.

Sincerely

Catherine Eaton 320 Paris Lane

Malvern, AR 72104

To Whom It May Concern:

I, Marcus White, hereby attest that for the majority of the year 2010, my father, Robert White, resided with me at my residence in Jonesboro, Arkansas. In stating the majority, I specifically mean the months of February through November. Though there were intermittent days in those months that my father was not physically present, as my father was assisting other family members during times of familial strife such as the death of my cousin Robert "Robbie" Eaton (who died February 4th of that year), assisting my Aunt Martha Ann Dunn who is battling cancer, and my Aunt Catherine Eaton who was recovering from my cousin's – her son's – death. These examples not withstanding, he was indeed living in my home as he received (and continues to receive) mail at my address, including important documents from the Veteran's Administration and several medications. If any party or parties need other verification feel free to contact me via the information that follows.

To Whom It May Concern:

This is a response to statements made by representatives of First Electric Cooperative during a

phone conversation that I, Charles Mack Jones, stated that my brother, Robert White, was living at 38

Rivercrest Drive:

To the best of my recollection, I said "staying" meaning that my brother did stay to visit and to

do maintenance on the house that I am incapable of doing, as I am disabled. The representative of First

Electric Cooperative had told me that since my brother had been living there that I had to pay a seven

hundred dollar (\$700) deposit or my electricity was to be disconnected within ten (10) days. I told him

that I was disabled and could not afford that amount, as I only receive eleven hundred dollars (\$1100) a

month from Social Security and that even if I could afford it, my check would not have been received

in ten (10) days. He told me, they had "proof" that it was my brother's residence and that if "someone"

would not pay the deposit the power would be disconnected in ten (10) days. I told him there was no

way I could pay the deposit or find another place to live in ten (10) days and that if they shut my

electricity off my insulin would ruin, my C-Pap and oxygen device (breathing assisting devices) would

not function. He stated they had the legal right to disconnect my service. I contacted my brother,

obviously intensely upset, so my brother paid the seven hundred dollar (\$700) deposit because of First

Electric Cooperative's terroristic threatening.
