METER AGGREGATION AND COMBINED)
BILLING FOR NET-METERING)
CUSTOMERS)

COMMENTS OF ENTERGY ARKANSAS, INC. IN
RESPONSE TO STAFF'S PROPOSED REVISIONS TO
THE STANDARD NET METERING TARIFF

Entergy Arkansas, Inc. ("EAI" or the "Company") submits these comments as directed by the Arkansas Public Service Commission ("APSC" or the "Commission") in Order No. 9 issued on September 19, 2013 in this docket, in response to the APSC General Staff's ("Staff") proposed revisions to the Standard Net Metering Tariff.

On September 3, 2013, the APSC issued Order No. 7 adopting revisions to the Net Metering Rules to incorporate provisions regarding meter aggregation for net metering billing and to reflect the provisions of Act 1221 of 2013 concerning the annual carryover of net metering credits. The Commission's Order No. 8 directed the Staff to file on September 17, 2013 the proposed conforming revisions to the Standard Net Metering Tariff, Appendix B of the Net Metering Rules ("NMRs") and any necessary changes to the Standard Interconnection Agreement for Net Metering Facilities, Appendix A of the NMRs. On September 17, 2013, the Staff filed its proposed Standard Net Metering Tariff

and stated that the amendments to the NMRs did not affect the provisions of the Standard Interconnection Agreement for Net Metering Facilities.

EAI has reviewed the Staff's proposed revisions to the Standard Net Metering Tariff and finds that the changes are consistent with the amended NMRs. EAI agrees that no changes are necessary to the Standard Interconnection Agreement for Net Metering Facilities at this time.

Respectfully submitted,

ENTERGY ARKANSAS, INC.

By: /s/Tucker Raney
